- Veteran healthcare industry subject matter experts on both business and HIT
- Comprehensive knowledge of the EHNAC criteria
- Independent, not employees of accredited organizations
- Bound by policies protecting candidate information
- Bound by conflict of interest and confidentiality policies

The Benefits – EHNAC Accreditation

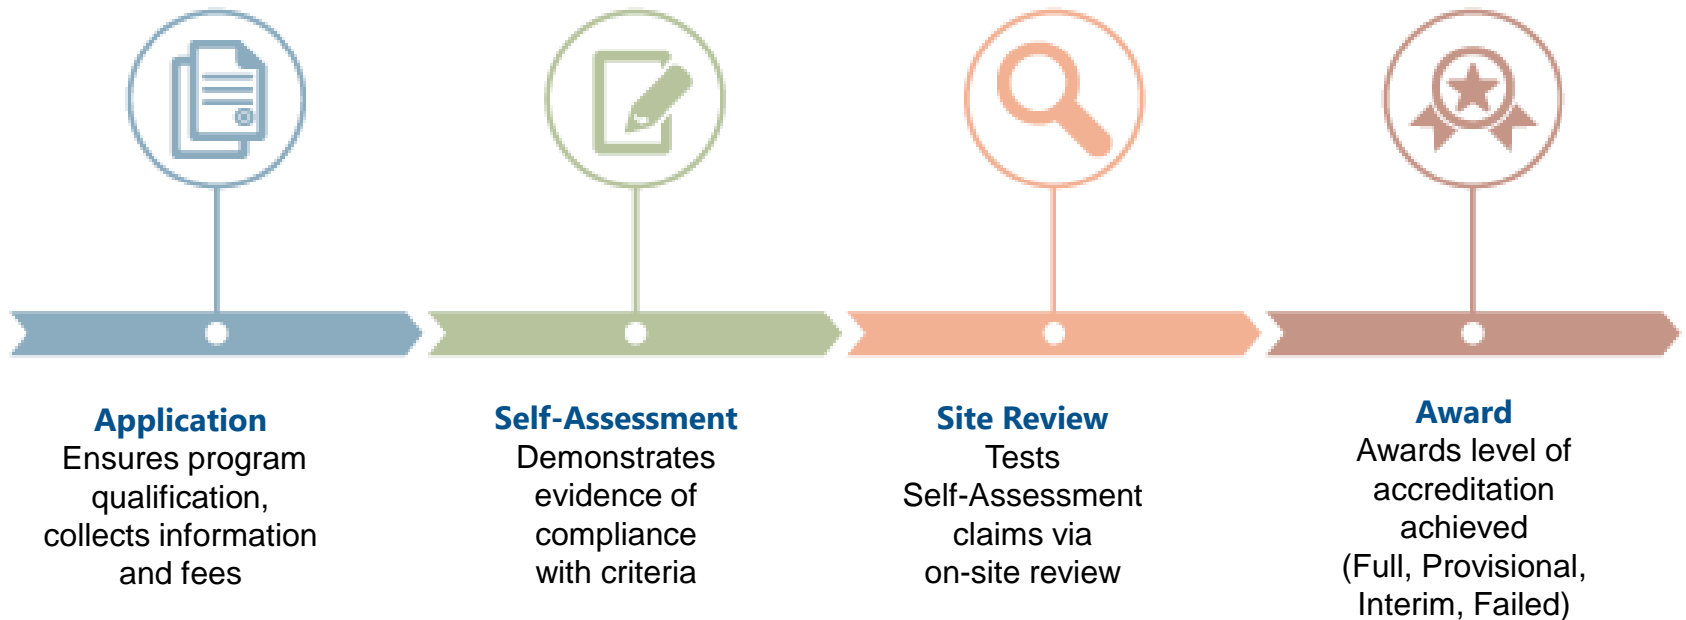

- Provides independent and objective industry recognition to ensure a higher-level of stakeholder trust
- Drives regular, comprehensive and objective evaluation of policies, procedures and controls
- Gives organizations a competitive advantage in a crowded marketplace by confirming the ability to manage health data with integrity and effectiveness
- Uncovers areas to reduce costs, improve operational performance and increase customer satisfaction

The Benefits – EHNAC Accreditation, *Continued*

- Identifies privacy, security, confidentiality and business risk exposures and mitigation strategies
- Allows organizations to meet regulatory compliance requirements and legislative mandates including:
 - HIPAA, ARRA/HITECH, Affordable Healthcare Act, Omnibus Rule and more
 - State of Maryland requirements for electronic health networks, ePrescribing and managed service organizations
 - State of New Jersey requirements for electronic health networks
 - State of Texas requirements for health information exchanges

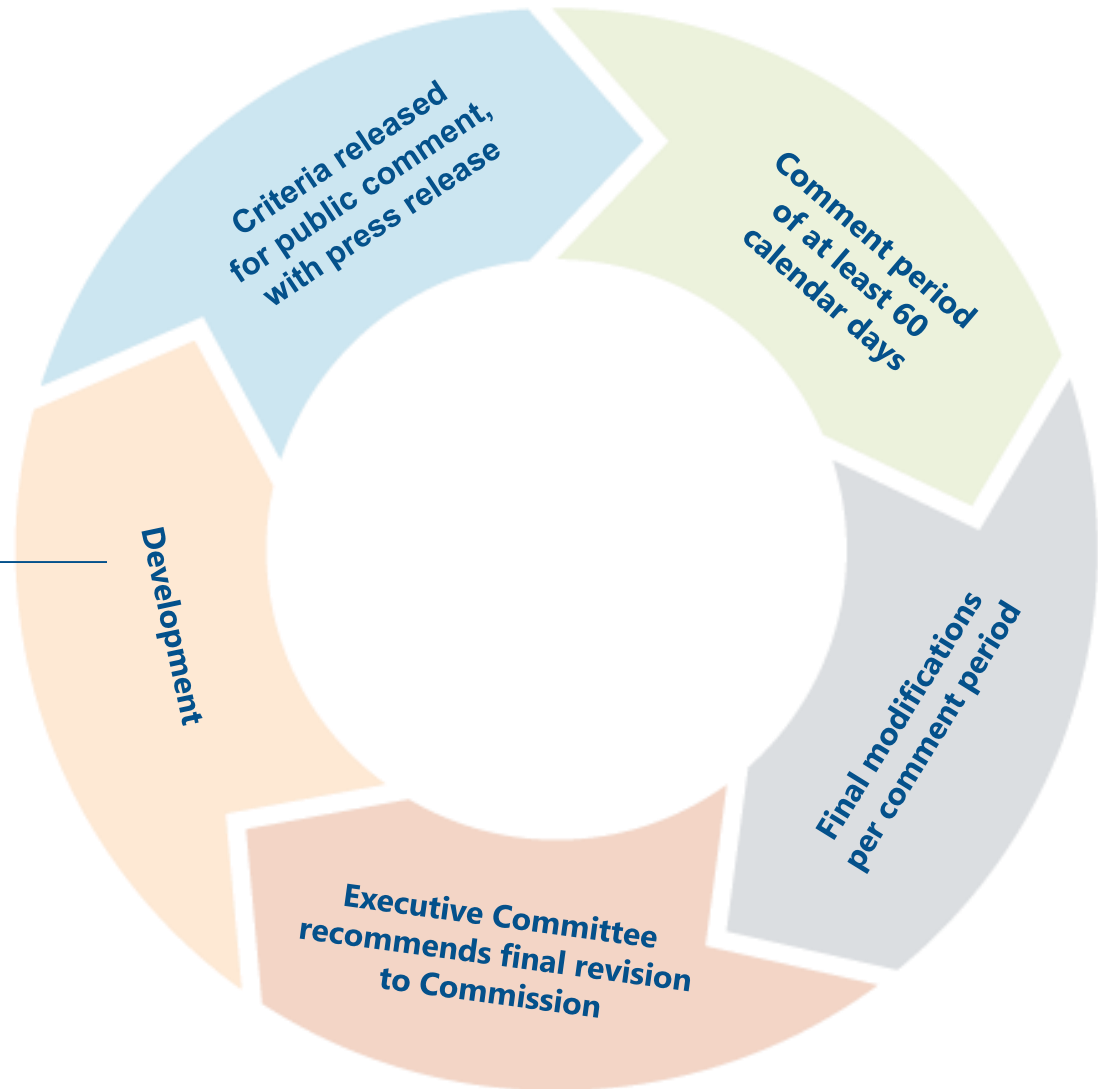

EHNAC Accreditation Process

- Candidate is approved and has 1 year to complete. Maximum 8 mos. to submit the self-assessment allowing up to 4 mos. for site review(s), final report and approval process

Criteria Development

- Criteria Committee recommends new and modified criteria to Commission
- Commission Approves, Rejects, or sends back to Criteria Committee

Across the Healthcare Spectrum

HITRUST CSF Certification

The HITRUST CSF certification – when attained in conjunction with the industry-specific EHNAC accreditation – demonstrates to business partners and prospects a commitment to the highest standards of data privacy and security.

The HITRUST CSF provides a comprehensive HIPAA privacy and security review, including HITECH and other applicable regulatory drivers such as PCI DSS, FTC Red Flags Rules and the FDA, etc.

The process includes a review of an organization's risk management program and cyber readiness, and ensures consistency and accuracy of reporting on requirements for covered entities and business associates.

EHNAC is the only organization with the ability to provide both EHNAC accreditation and HITRUST CSF certification.

Why choose EHNAC as your HITRUST CSF Assessor?

- Using EHNAC for your HITRUST CSF assessment provides consistency between both certification and accreditation programs for HIPAA privacy and security compliance.
- Organizations achieving HITRUST certification will have 100% of their privacy and security credited to their EHNAC accreditation.
- Organizations that already have EHNAC accreditation will have developed the majority of their HIPAA-related HITRUST CSF privacy and security to apply to that certification.
- EHNAC site reviewers are also HITRUST Practitioners, making it easier for organizations to undergo audits.
- Obtaining both HITRUST CSF certification and EHNAC accreditation at the same time significantly reduces the time, expense and redundancy needed to prepare documentation and undergo required site visits.
- EHNAC is participating on key HITRUST workgroups, advocating strong continuing education and industry requirements regarding privacy and security are communicated and included in future CSF versions.
