

Why EHNAC?

Here are the top 10 reasons why healthcare's best companies choose to distinguish themselves with accreditation and certification from the Electronic Healthcare Network Accreditation Commission.

1 Zeroed in on Healthcare

Our 18+ accreditation programs are specifically designed to ensure the privacy and security of the Protected Health Information (PHI) that flows through healthcare organizations.

2 One-of-a-Kind

EHNAC is the ONLY organization with the ability to provide both EHNAC accreditation and HITRUST CSF® certification.

3 Stakeholder-specific

EHNAC accreditation programs serve the unique needs of individual stakeholders – from ACOs, data registries and health networks to eprescribing vendors, HIEs, payers and more!

4 Transparent

With EHNAC's open processes – from pricing to criteria development and the application process – organizations know what's required, every step of the way.

5 No Risky Business

Accreditation reduces risk to PHI and operations through the demonstration of a risk management program with effective controls to minimize threats.

6 Improved Operations

Through comprehensive and objective evaluation of policies, procedures and controls, the accreditation process uncovers opportunities to reduce costs and improve operational performance.

7 Wise Beyond Our Years

All EHNAC practitioners and reviewers have 25+ years healthcare experience and are experts in their unique business areas including secure messaging, operations and privacy and security best practices.

8 Ready for Anything

EHNAC accreditation prepares organizations for 3rd party requirements including HIPAA/HITECH compliance, trading partner audits and compliance with state mandates.

9 Industry Champions

EHNAC's recognized leaders are committed to improving the security of healthcare data through various federal cybersecurity initiatives, including the VA, ONC, OCR, WEDI and the HHS National Task Group.

10 Redundancy Elimination

Obtaining both HITRUST CSF® certification and EHNAC accreditation at the same time significantly reduces the time, expense and redundancy of both programs.

The Electronic Healthcare Network Accreditation Commission (EHNAC) is a voluntary, self-governing standards development organization (SDO) established to develop standard criteria and accredit organizations that electronically exchange healthcare data. EHNAC was founded in 1993 and is a tax-exempt 501(c)(6) nonprofit organization. Guided by peer evaluation, the EHNAC accreditation process promotes quality service, innovation, cooperation and open competition in healthcare.
